

# Domingos Nascimento

## OBJECTIVE

My main goal is to create innovative and efficient solutions through full stack development using modern technologies like .NET/C#, React, and relational/NoSQL databases. I seek opportunities to apply and expand my knowledge in challenging projects.

## SKILLS

**Frontend:** React, Next.js

**Backend:** .NET/C#

**Databases:** PostgreSQL, MongoDB

## ADDRESS

Angola, Luanda

## PHONE

(+244) 935 751 955

## EMAIL

domingos.nxscimento@gmail.com

## WEBSITE

www.adyllsxn.vercel.app/

## EXPERIENCE

JAN 2025 — FEB 2025

### Frontend Development Internship - UTANGA

#### **React • TypeScript • API Integration**

- Interface development with React and TypeScript
- Integration with RESTful and GraphQL APIs
- Implementation of reusable components

MAY 2025 — JUN 2025

### Academic Projects - UTANGA

#### **.NET/C# • PostgreSQL • MongoDB**

- Real-time Notification API with SignalR
- Automated Email System
- Web services and infrastructure configuration

## EDUCATION

**UTANGA** - Bachelor's Degree in Computer Engineering

*Focus on Software Development, Systems Architecture and Computer Networks*

## COMMUNICATION

- Technical documentation for projects and APIs
- Clear communication within development teams
- Effective collaboration in multicultural environments

## LANGUAGES

- **Portuguese** - Native
- **English** - Fluent
